Advantages

- Investors benefit from interesting coupons throughout the entire term of the bond. The amounts and the payment dates are fixed in advance.
- Austrian government bonds are legal investments.

Risks you should be aware of

- Between issue date and maturity, price fluctuations are possible, which means that the sale of the bond prior to maturity may result in a loss.
- The 100% capital redemption only applies at maturity.
- Investors bear the risk of the issuer.

Description

Austrian government bonds are primarily issued in the form of fixed-rate securities. Their coupon is usually paid once a year. At maturity, the bond is redeemed in full.

Payment notes

This bond pays a coupon of 1.500 % p.a.

Settlement

This bond is redeemed on 20.02.2047 at 100 %.

Secondary market

During the term it is possible to sell the product during the trading hours at the exchanges, where the product is listed.
